## MARMOREAL COLLECTION Innovation, Expertise & Elegance

Innovation, Expertise and Elegance are the three elements that reflect in our products, and this also represents to what “MILOTA” stands for.

MILOTA Born with the concept of blending the artistry skills into our products by crafting the manufacturing on advanced & modernistic platform.

MILOTA products embody a unique STYLE statement in each of its artifacts catering to the different aesthetic preferences of architects & designers.

Our range of mosaic is also a sophisticated convoy of elegance, durability & estheticism that preserves the age-old versatility with its exotic range of multiple colors with 7 different shapes, 5 looks & stylish textures.

### VETRIFIED MOSAIC OR GLASS MOSAIC ?

The Milota mosaic has unique features that set it apart from glass mosaics and make it one of a kind. Perpendicular sides, flat masonry and a slightly rounded glazed surface allows for perfect adhesion of the tiles during installation. Absolutely perfect in terms of aesthetics and shape, these mosaics result in projects and decorations that preserve their beauty and resistance over time.

COMPARISIM

#### MILOTA VETRIFIED MOSAIC

##### GRIP

Maximum contact surface for gluing -  
Glue can be spread all over the tile - Glue adheres completely, forming a single body with the stoneware surface - Will not come away over time

##### JOINT FILLING

Fills the whole joint and glue adheres perfectly, because the spaces are even and wide enough - Filler is compact, guaranteeing the hold of the tesserae in water and ensuring they do not come away

##### SIDES AND THICKNESS

Perpendicular sides and slightly rounded glazed surface - Maximum mechanical hold thanks to the “spike” effect of the filler

- Excellent resistance to lateral thrust

##### WARPAGE

Even surface - Pleasant to the touch

##### TRANSPARENCY

Totally opaque glaze - Colour remains stable over time

##### CLEANING AND HYGIENE

Even surface - Glaze does not retain dirt -  
Total hygiene - Easy to clean

#### GLASS MOSAIC

##### GRIP

Limited contact surface for gluing -  
Adheres with difficulty due to vinyl glue residue on the back of the tesserae -  
Lassy surface repels the adhesive - Risk of the tesserae coming away over time

##### JOINT FILLING

Difficult to fill the whole joint because of the small, uneven spaces - Filler tends to partially erode if submerged in water where algae form; possibility of the tesserae coming away

##### SIDES AND THICKNESS

Slanted sides with the joint thrusting outwards - Minimum lateral hold of the joint - Considerable reduction in mechanical hold

##### WARPAGE

Uneven surface - Unpleasant to the touch

##### TRANSPARENCY

Loss of brightness - Change in colour

##### CLEANING AND HYGIENE

Uneven surface - Dirt takes hold -  
Minimum hygiene - Difficult to clean

## Marmoreal Effect

■ 2.5 x 2.5 cm | 5 x 5 cm | 10 x 10 cm ■ 5 x 10 cm

*Marmoreal effect is a premium quality of wall & floor mosaic. Our collection includes natural stone effect, travertine, marble, limestone, slate, split face, effect. Designs in premium glossy & matt finish.*

*Mosaic is often described as a kind of painting without paint. Mosaic pieces are made by setting small cubes.*

*Our determination and passion to transform your living & working spaces remain the same. As a reflection of this passion, we are actively seeking for new design, no matter where they are, so that we can bring quality designs from around the world to your door step. The designs of mosaic has changed over time. Today we put the same care as to decorating a living room or kitchen because it is a really special space.*
